In the same class diagram u designed last assignment :

1- **Make the full business life Cycle of Student Controller**
   - ⇨ **GetAll() ,GetById() ,Add ,Edit ,Delete**
   - ⇨ **When Adding or Editing we need to show all Departments to select from it**
   - ⇨ **When deleting direct to warning View**
   - ⇨ **In GetAll page implement Pagination, Search by name on student, filter based on the department of student**

2- **Make a LinkedIn article about AutoMapper , StatusCode of response if both is a plus**

3- **What is the purpose of async/await keywords**

4- **Self study Report**
